**Courtney & Co**

*April 05 – May 07. Web Designer/Developer, Server Administrator*

Assumed all the online design and implementation duties for this full service branding firm. I designed websites and took through PHP implementation. I maintained a Virtual Private Server of our clients' sites, performing duties such as updates, statistics, HTML email campaigns and tech support.

Also acted as a Project Manager on several large CMS projects, coordinating remote teams of developers.

In addition I worked on Identity and Branding.
